J. T. SHEWARD,

SPRING AND FIRST STREETS.

THOUSANDS OF STRANGERS

WILL BE IN THE CITY DURING

FAIR WEEK.

Extraordinary efforts will be made to have each and every one of them pay us a personal visit. We want all to know of our great enterprise, built up in less than three short years, and still growing faster than ever before. An enterprise that has gone far beyond a mere experiment, and to-day is based upon a foundation as firm as the Rock of Ages. An enterprise that has had a complete walk away from the old fogy idea of doing business, placing our house in the front ranks as one of the great institutions of this wonderful city. Strangers and citizens, we want you all to

Visit Our Big Dress Goods Department.

Make a comparison of the prices. Look at the difference in the character of our goods. Make a note of the polite and gentlemanly manner in which you are waited upon. Take a

Stroll Through Our Big Notion Department.

Note the number of employees in this very large department. Price a few articles at random. Compare our prices examine the goods carefully, make a note of the treatment you receive in all departments of the house, and we know you will feel the pleasure of shopping at prices in our Cloak Department.

ALL OUR CLOAKS ARE TAILOR-MADE

They are perfect in fit, exclusive in styles, and every purchaser of a cloak will receive a handsome ornament free. Our object is to be the leading Cloak house. We have never before made such of an effort in this direction, but this season we start in on a big scale, and we will not stop for anything. It matters not what others may do. We will sell cloaks cheaper, and we will do more for our patrons than any house dare to do.

Every merchant throws upon his counters a 50c, a 75c, a $1 and a $1 25 quality of underwear. These are all popular prices, and we keep a larger line at these figures. During our visit East we made it a special object to get the best values at these prices, and we know to-day that no house can afford to meet our qualities at the prices named. We say

EXTRAORDINARY FINE GOODS AT THE PRICES NAMED

They are all well made, full sizes and correct in every way, and cannot be matched. These are assertions that any one can verify if they will take the trouble. Take any garment of the quality, the size and the shape of the garment, and if our prices are not the lowest in any particular, bring them back and get the money. Not a cent of it will be kept back. We positively sell underwear the cheapest.

Have you guessed on the number of beans in our glass jar?

Have you guessed on our big pumpkin?

Have you guessed on the number of peanuts?

Don't you think it will profit you to take a stroll through our mammoth establishment, by far the largest, cheapest and best conducted dry goods house in the city.

LETTING DOWN THE PRICES AS WE GROW LARGER.

OUR MILLINERY OPENING.

The lips of our visitors uttered plaudits of surprise and pleasure as their eyes fell upon the beautiful effects and display of our millinery department as exhibited on Saturday, opening day. From early morn until long after 10 o'clock at night this department was crowded—patient patrons waiting to be served. The sales were unprecedented, and we are firmly convinced that the public will appreciate all extraordinary efforts in their behalf, when accompanied with worth and merit. Too much praise cannot be given to our corps of milliners and assistants—all we can say is that they outdid our remotest anticipations. The display will be continued during the entire week, to enable visitors to the fair to view this magnificent display.

DRESS GOODS

We are carrying a tremendous stock in silks, satins, velvets and worsteds. Our prices are bargains. There is not a lady who enters our store but what compliments us upon this season's selections, and reiterates that the goods are cheaper than ever known before. We scarcely realize how we got hold of such elegant fabrics at such low prices. Every line of goods is a bargain. More particularly do we call attention to the few specialties that we shall offer during this week.

LOT ONE.

French Tricot cloths, 60 inches wide, in solid and mixtures. These goods sell ordinarily for $2 25 a yard. We have marked out the line for fair week at

$1 PER YARD.

We are selling a line of all shades of Ladies' Cloth, all wool, at 49c, that others ask 75c for.

All shades of extra heavy cashmeres, silk lustre, 44 inches wide, 65c, that are worth $1.

Combination suits of 14 yards, 7 yards of plain and 7 yards of figured goods, embroidered in silk, in stripes and brocades, $5 60 a pattern. These goods are worth $12.

Combination suits of figured and plain Empress Cloth, 14-yard patterns, half plain, half figured, $3 98. These are the most beautiful and durable goods of the season.

Garnet Brocaded Velvet (cut and uncut pattern), 24 inches wide, all silk face warranted, worth $4, will be sold while it lasts at $1 25.

Bourette Combination Suitings, the very latest novelty, 14-yard patterns, 7 yards plain and 7 yards figured, $5 32. These goods have been sold in this town by a "leading dress goods house" for $10 40 per yard.

This week we will offer a line of Brocaded Satins in all shades and hues at 85c. These goods are sold in New York to the jobbing trade at $1 25 per yard

A line of silks in black and colored at 98c that cost $1 27 to lay down in New York. A leading importer who saw this line advised us to put them at auction in New York, and agreed to guarantee us $1 20 under the hammer.

We mean business. We've got the stock. Not like them other fellers that hate got to get it. We're getting greater bargains every day, and have to make room for them. We can't do like them, keep them until people pay no cent price. Our buyer buys every day, and he wants money to pay with, and we can't send it to him by keeping our goods. "Let them go if they don't make money for us. We'll invest it in something else that will."

NOTICE.

THE C. W. GIBSON COMPANY

hereby give notice that they have sold and transferred to Mr. Z. L. PARMELEE their retail trade and books of Glassware, Crockery, Gas and Oil Fixtures, Plated Ware, Cutlery, etc., and whilst thanking their friends and customers for their liberal patronage in the past, they take great pleasure in recommending their successors to the good-will and consideration of the public.

Having purchased from C. W. GIBSON COMPANY their entire retail stocked Crockery, Glassware, Oil and Gas Fixtures, etc., contained in their warerooms at 108, 110 and 112 North Main st., Los Angeles, Cal., I respectfully request a continuance of the favors so always so my predecessors, which I shall endeavor to deserve by fair and liberal treatment of all my patrons. I also wish to give notice that, finding such large quantities in many lines on hand than I deem desirable for and necessary for my wants, I have decided to make important reductions in prices, so as to encourage a prompt disposal of all superfluous stock, and to make room for my large importations of new and fresh goods, now on the way.

All those in need of anything in my line are therefore requested to give me a call.

CONSUMPTION.

The earlier symptoms of this disease are a sense of weariness upon little exertion, a disposition to remain quiet and idle, a peculiar sensitiveness to the effects of cold and a shortness of breath upon going quickly up ascending a hill or stairs, a slight hacking cough, with or without expectoration, flying pains throughout the chest, back, or under the shoulder blades. The symptoms are more towards or during the night and early forer in the afternoon, cold feet and hands, and in many cases blue lividity of the lips and roots of the finger nails.

The more advanced symptoms are wasting of flesh, diarrhœa, chills and fever, night sweats, expectorations of yellow pus from the ulcers or cavities in the lungs, with or without a depression of the chest, increasing weakness and at last a closing up of the air passages of the lungs, causing strangulation or suffocation of the patient for want of power to expectorate the mucous from the lungs.

Treatment of this terrible form of consumption has been very unsatisfactory, both alike to the physicians and their patients, but lately since the discovery of the Koran system of practice in connection with the Medicated Inhalations, have been completely cured, where had it not been for this system of practice, utter failure to combat the evils of the disease would have continued up to the present time. The system of Medicated Inhalations is the only means by which these diseases can be cured, and they are recommended by the highest authority, both in Europe and America. And were we would draw the distinction between Inhalation and Atomization. Some persons suppose they are the same in every respect, while nothing is farther from the truth. In Atomization the liquid is scattered in the form of a spray which enters the throat, while Inhalation, the remedy is to be inhaled, or diffused in the air breathed, and conveyed directly into the air passages or the lungs as ordinary air. By this means we are enabled to disinfect the hardened mucous in the lungs, save the cough, facilitate expectoration, correct and heal ulcers and cavities after a hope of cure by the ordinary methods is past. Persons desiring treatment by this system of practice can use the remedy at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever. The greater portion of consumption cases in the first stage can be radically cured.

Consultation free and price within the reach of all.

The very best of references given from those already cured. And we would particularly urge upon our Eastern friends the necessity of direct medication—inhalations—as well as the most favorable climatic influences, if you wish to avoid the sad experience of hundreds of invalids who depend upon the climate alone, as nine cases out of ten die in consequence of this very thing.

Those who desire to consult me in regard to their cases had best call at the office for an examination, but if impossible to visit the office personally, may write for "List of Questions" and circular, both of which will be sent free of charge. Address

The above lands are almost level; only sufficient descent for drainage. They are all damp lands; water on any of them at six feet, and located in artesian belt; abundance of water in from 800 to 400 feet. The soil is a black sandy loam, capable of producing anything, but especially adapted to alfalfa and stock. A portion of the land is now covered with wild grasses. We refer especially to the 3775 acres. There is not one foot of waste land in the whole lot, and no other lands in California so cheap and so near to a railroad. "Oh, Lord," prayed a good old deacon; "Oh, Lord, send us a revival. If you can't send us a revival, send us a row." The late Grand Jury sent us a row. The revival may follow.

The site of ancient Jericho has become quite a famous winter resort. Cottages have been built in the region, and invalids find a pleasant retreat there. The scenery is grand and the climate healthful.

The prominent sheep-raisers of Tennessee have resolved to abandon the business, owing to the want of a dog law, asserting that 500,000 sheep cannot be maintained against 500,000 dogs.

The rumor that George Hoadly would be the next Democratic candidate for the Presidency has been found to be without foundation. The discovery of the canard was made on Tuesday, October 13, 1885—in the evening.

The election frauds in both Cincinnati and Columbus appear to have been bold and numerous. All lovers of a pure ballot-box and honest government will rejoice to see the crimes unearthed and the criminals brought to justice.

The "Whofa Whofas" live and flourish in Santa Maria, Santa Barbara county. The Whofa Whofas are a semi-secret organization banded together for the malign purpose of doing good to their fellow Whofa Whofas—to pull them in out of the wet and fill them up with good grub and good cheer.

The San Francisco Post remarks that "the law's delay could be much shortened by breaking up the practice of placing the convenience of attorneys above the interests of litigants. Granting postponements to oblige lawyers who are overburdened with business, or who pretend to be, is a weakness of the American bench which gives good ground for complaint." This is a perpendicular statement of an indisputable fact.

The San Luis Obispo Tribune learns from good authority that the extension of the Southern Pacific Railroad through the eastern part of that county will be accomplished within the ensuing twelve months. A branch will be built from San Miguel to San Luis. This enterprise, when consummated, will be of great consequence to a region rich in natural resources, and already undergoing substantial development. San Luis is one of the "now counties," and very good ones she raises, too.

Things that were vain.

Columbus, O., Oct. 19.—When the Board reassembled this evening there was a large crowd present. Clerk Joyce announced that there appeared on the face of the returns from precinct A, of the Thirteenth Ward, a bold fraud which had been concentrated since Saturday evening by some person who had severed the tally sheets and made an addition of 300 votes to the amount of each Democratic candidate. He would neither sign the abstract nor issue certificates to any candidate unless the 300 were first deducted from the totals on the Democratic ticket. Matt. Martin, another member of the Board, spoke in the same strain, and Justice Critchley, the third member, said that they were then unanimous on that point. The 300 fraudulent votes which had been called up were deducted, and the returns read as originally returned. This will give Taylor (Rep.) about 350 plurality over Young (Dem.). The official footings have not been made, but will not vary much from these figures. The Republicans will have two of the three members of the Legislature from this county. Clerk Joyce offered $300 reward for the apprehension of the thief who had severed the tally-sheet, and the Commissioners were requested by a meeting of citizens who witnessed the count to offer a reward of $500 for a similar purpose.

Fraud in Hamilton county.

Cincinnati, Oct. 19.—The official count of votes cast in Hamilton county at last Tuesday's election, began to-day. The Republican and Democratic candidates were represented by counsel. The returns from three precincts are missing and a mandamus issued in each case for their production. It may require two or three days to complete the work.

While precinct H., of the First Ward, was being called, Dr. Thompson, of the Eighteenth Ward, B precinct, came in with Charles Regan, both judges of election. They brought the missing tally sheets, wrapped in a paper, which they delivered to County Clerk Dalton in that shape, instead of sealed, as the law requires. Dr. Thompson, Republican judge, said: "I have to say that I did not sign those tally sheets, nor to supper election night, requesting the other judges to do no counting until I returned. I had eaten nothing all day, but when I came back I could not get in, as I refused to sign."

Dalton took the sheets, at the same time remarking that they should have been sealed and one sent to the City Clerk. The opinion of the County Solicitor was requested in the premises. The count was adjourned until 5:30 p. m. After four wards had been canvassed (the discrepancies between the tally sheets and the official count being of little importance) precinct A of the Fourth Ward was reached. The total number of votes announced cast in this precinct was 996, divided as follows: Hoadly 926, Foraker 48, Leonard 22. Ex-County Auditor Cappeller objected that according to the newspapers there were but some 700 registered in this precinct, and if this was true, over 300 fraudulent ballots had been cast. County Clerk Dalton said he did not know whether the newspaper statement was correct or not. He had only to count the vote as returned, and the count was proceeded with. Another objection was made by a citizen that the returns were not certified to properly. Dalton advised the objector to make a memorandum of it and take advantage of it if he could.

Julius Dexter arrested.

Julius Dexter, one of the most active members of the citizens' committee of one hundred now engaged in investigating the election frauds, was arrested to-day on a charge of perjury. The trial is set for Wednesday, and Dexter is placed under $1000 bonds. The warrant on which the arrest is made was sworn out by John Minor and Patrick Kelly, judges of election at precinct F, Ward 19. It charges that Dexter made oath to a complaint before Squire Dunnington that they, after the counting had been commenced in their precinct, postponed it and then removed the ballot-box. They claim that Dexter committed perjury in swearing to this. Dexter has subscribed $500 to the committee fund for carrying on the investigation.

Montgomery county returns.

Dayton, O., Oct. 19.—The official count of Montgomery county was finished to-day. Hoadly's majority is 501. The remainder of the State ticket varied eight or ten votes. Samuel E. Kemp, Republican Senator, has a majority of 56. Montgomery gave Robertson, Democrat, 185 majority. Trouble gave Kemp 334. Three Democratic Representatives, Remsller, Edwards and Turner are elected. The county Democratic ticket is elected.

The Real Needs of Chico.

TINKERED RETURNS

How the Democracy Sought to Carry Ohio.

THEIR FRAUDS BROUGHT TO LIGHT.

Startling Revelations of Clumsy, Bare-faced Attempts to Defeat the Will of the People.

Associated Press Dispatches to The Times.

COLUMBUS, O., Oct. 19.—The official count of this county was continued today. T. E. Powell appeared for the Democratic candidates and spoke three-quarters of an hour, taking the ground, and citing authorities to that effect, that the returns from precinct A of the Fourth Ward and precinct A of the Thirteenth Ward should not be counted. They are both Republican precincts. R. M. Harrison followed for the Republican candidates, and at the conclusion of his speech the board of canvassers concluded to receive and count the returns. The objections to them were that the judges of election had failed to properly certify to the returns. In precinct A of the Fourth Ward, the returns were counted and tallied to the satisfaction of all candidates. The returns from the Thirteenth Ward have been read through the list of Republican candidates, there being a total of 760. The original vote stood: Republican, 703 on the head of the ticket, and 307 for the Democrats. Three hundred tallies had been added to the full Democratic ticket, with the exception of Atherton for Supreme Judge, who had been given two hundred. This made the total vote a little over a thousand, about three hundred more votes than are in the precinct. The board decided to count the precinct as returned. This will elect about the entire Democratic county ticket, and Taylor, Republican, for the Legislature by 400 votes. Meyers and Young, Democrats, for Representatives will be defeated. There is considerable feeling over the discoveries in the Thirteenth Ward. The returns have been in the possession of the clerk since Saturday.

NOW THE FIGURES WERE RAISED.

COLUMBUS, O., Oct. 19.—The State ticket was read through, and it was not discovered that additions of 300 had been made to the vote of the Democratic candidates until the county ticket was reached. The addition, however, seems to have been to the entire ticket, county and State. The poll books returned from precinct A of the Thirteenth Ward, Clerk Joyce (Dem.), who had charge of the returns since Saturday evening, says that the figures have undoubtedly been changed. His theory is that, while they were being handled around in the crowd during the argument before the returning board Saturday, some one slipped out with the tally sheet and made changes in the figures. H. S. Oesing, Democratic Judge, says that the figures have been changed since the tally sheet left their hands. An inspection shows that changes and additional tallies have been made by a different pen and ink from the original. The Republican vote in the precinct was 504 or 506 votes and the Democratic 300 and a few votes. The figures 5, beginning the numbers opposite the Democratic candidates, have been changed in each instance to a figure 8. The work is done in a very bungling manner. If the changes of the tally sheets have been perpetrated by Custon-house officials in respect to the fanning of Chinese at this port. The published statements have created great consternation among the government officials, and Judge Hoffman, in his charge, took the ground that to arrive at the facts an investigation by the Grand Jury was necessary. The Grand Jury had it in their power to examine critically all the alleged facts, and to cite such witnesses as they believed could give them information on the subject. He read a letter from ex-Consul Mosby, in which the latter informed him that a regular trade was being carried on in Hong Kong in United States customs certificates. Judge Hoffman explained the customs method of issuing red certificates, and said that if a Chinaman in complicity with the customs officials wished to get the certificates to sell, he could do so by sending down "dummies" to register. A customs inspector could by these methods easily obtain possession of several hundred red certificates, which would not be called for. Then he could take to Chinatown and sell receiving back white tags, and would fix them in the Custom House, and the transaction would appear right—that is, the Chinaman would seem to have departed, when, as a matter of fact, they would never have left San Francisco. The certificates could be sent to China and sold. Judge Hoffman recommended a searching investigation into these matters, so that if it could be shown that there was any foundation for these charges of fraud, the matter could be made and brought before the courts.

A Brute's Bloody Deed.

San Francisco, Oct. 19.—John Keenaghan, a saloon keeper, living at 410½ Fourth street, beat one of his children, a sister-in-law, Martha N. Hood, this morning, with a hammer. Miss Hood and Keenaghan's wife kept a fancy-goods store on the corner of Fourth and Harrison streets. His wife had to have petitioned for the rights of sole tradership in partnership with her sister to the exclusion of her husband. Keenaghan believes that his sister-in-law induced his wife to start a separate store, and was so incensed at it that on visiting the store this morning he at once attacked his sister-in-law. He was arrested at the time. Miss Hood is not expected to recover, as her skull is so fractured that the brains protrude.

A Tent Case.

Judge Lawler to-day overruled the demurrer to the petition in the case of Charles Robinson versus Controller Dunn. This was a test case to compel the Controller to pay plaintiff $60 as compensation for extra services as an employe of the State Senate. The amount involved, taking in all employes, is about $5000.

The University Presidency.

The Board of Regents of the State University will hold a special meeting to-morrow for the purpose of electing a President of the University. It is generally understood that Edward L. Hoskins, of the University of Wisconsin, will be selected.

Attempted Wife-murder.

George A. Stephens, colored, attempted to cut his wife's throat to-day, and then stabbed E. W. Mickens, also colored, for interfering. Mickens's wounds are believed to be fatal. Stephens came to make any statements. He has been dissipating and gambling heavily for the last six months.

Arrested.

Deputy United States Marshal Mellus, who is charged with having attempted to bribe F. T. Hawes, Inspector of Customs at this port, to allow a Chinese woman who had been remanded back to China to come ashore again, was placed under arrest to-day.

Search and Seizure.

The charge of perjury against ex-Senator Sharon, and of intimidation of witnesses in the prosecution of the case of Chancery Houghton, against Miss Sarah Althea Hill, were dismissed to-day by the Grand Jury.

A Wrestling Match.

The wrestling match to-night at Turner Hall between Masada Soriseki, champion Japanese wrestler in America, and Samuel Mathews, champion of the Pacific Coast, for $250 and the championship of the Pacific Coast. The latter secured the first fall, Greco-Roman style, in 26 minutes and the second, Japanese style, in 2 minutes.

Ford Ward in Court.

NEW YORK, Oct. 19.—Ford Ward was brought into the court of Oyer and Terminer for trial this morning. After some discussion in regard to the substitution of a new indictment, which covers the ground of all the others, the case was continued until this afternoon. In the afternoon it was continued until next Thursday. The prosecuting attorney declined to go forward with the trial on the original indictments, on the ground that by the arrest of W. T. Warner, the witness chiefly relied on to prove the case, he might be legally incapacitated from giving testimony thereby, and thus the case would practically go by default.

Corporation Fruit Marketing.

A correspondent writes to the Sacramento Bee that he has "read with interest the article published in your paper [the Bee] and quoted from the LOS ANGELES TIMES, giving in detail the fruit corporation plan proposed by Mr. DeBarth Shorb." He finds some merits in Mr. Shorb's plan, but at the same time serious objections. The correspondent says:

He takes it for granted that, if an organization is formed, the extensive commission merchant or speculator who has made large fortunes in shipping California fruits, and who has unlimited capital at his command, together with a wide experience and thorough knowledge of the business, is going to submit quietly, fold up his tent and silently steal away. But in this, I fear, Mr. Shorb counts without his host.

Is not the Eastern market as open to the commission merchant as to the proposed corporation, and is it not morallikely that the commission man will make extraordinary efforts to throw every obstacle in the pathway of success, and to do all in his power to defeat harmony in the ranks of the corporation? And how easy will be the task! In the first place, you must admit that all growers are not of one mind, and never can be brought to think alike. That no matter how large a number of growers may enter the proposed corporation, there is sure to be quite a respectable minority who will keep out. This minority will be more than sufficient to furnish the wide-awake commission man with all the ammunition he may require in the shape of fruit, with which he may successfully fight his enemy, the corporation.

Mr. Shorb concludes his article by saying:

Remember, one single drop of water will overrun the cup as surely as a thousand, and the insignificance of the drop here acquires a position, power and value not to be overestimated.

On this point there can be no dispute. Hence, one drop acquires so important a position, why will not the commission man's shipments, so guided as to squarely meet in the market the shipments of the corporation, become a drop as important and as serious as to completely destroy the equilibrium between supply and demand. In the event of a corporation being formed, war between the corporation and the powerful commission man is inevitable. And it requires no great prophet to foretell that the corporation, lacking, as it will, experience, lacking connections, lacking confidence to a large untried directors, lacking the boldness, courage and unanimity existing in a private firm, will stand a poor chance in battling with an enemy who will enter the field with a determination to purposely lose money for an indefinite period in order to bring unsatisfactory returns and thus demoralize the corporation stockholders. In fact, a fruit-corporation will find itself a helpless target at which the active and tireless commission man will fire his shots with most telling and disastrous effect.

These are valid objections and real dangers to be feared in consummating the plan projected by Mr. Shorb. It will be found impossible in practice to unite all the fruit-growers of a given district in a single organization, operating through one system of exchange. There will always be found producers enough to stand out and antagonize the central organization by independent action or by setting up a rival shop. The cry of "monopoly," whether well or ill founded, will be raised, and pretty soon Old Nick will demand to be paid off, probably just at the critical and unpleasant juncture when there is no pitch at a satisfactory degree of temperature.

These and other objections to the plan proposed are presented for consideration, not because the TIMES would discourage co-operation on the part of the fruit-producers, which is desirable and necessary in order to protect themselves and prevent the middlemen and transportation lines from getting away with all the profits of the business; but it is essential that, in any plan adopted, only feasible and practical features be incorporated, and chimerical crinks be eliminated. The promoters of the projected fruit-growers' exchange must bear in mind that they are proposing to enter into active competition with the established and strongly-intrenched fruit dealers, who will not let go their hold or surrender the advantages of position without a fight. For this reason it is obviously necessary that any new co-operative organization that may enter the field shall do so on more than equal terms with the disciplined forces already holding the fort, else the result will be an unequal contest, in which the loosely-welded, poorly-disciplined and more unwieldy organization will be speedily driven from the field.

One leading objection to the co-operative plans proposed strikes us with force. It seems to us that too much and too elaborate machinery is contemplated in these plans, and too much expense involved. The elaborate schedule of high salaries set out in Mr. Sallee's plan, for instance, is enough to make cautious, practical men look askance at it. We do not, of course, hold that valuable service should not be well compensated, but the standard by which the salaries of the various officers and agents is to be fixed ought to be the average standard prevailing in private commercial circles, or the co-operative people will find profitable competition with their more economical rivals out of the question.

The new venture may work out a successful destiny yet, but, like all things of value and permanency, its beginnings should be modest and its growth slow and sure.

NEW BUILDINGS

In the Hands of a Los Angeles Architect.

Carroll H. Brown, architect, Schumacher block, being interviewed by a TIMES reporter yesterday, gave the following list of buildings in his hands:

Just completed, house for Louis Shiveley, in Wilson Orchard tract, Hill street, between Ninth and Tenth; style, modern adaptation of Gothic; nine rooms, besides pantry, closets and bath; main rooms and hall connected with sliding doors; cost $6500.

Residence for H. L. Macneil, of the County Bank, on Sixth street, between Olive and Hill; reception hall, parlor, sitting room, reception room—six rooms on the first floor, besides closets; large chambers above, with dressing rooms off each; cost $8000; frame up.

For W. A. Clark, late of Montana, residence on Olive street, between Ninth and Tenth, to be the finest house on the street; outside finish, first story rustic, second story shingled, plate-glass windows in front, seven rooms on first floor; four opening together with sliding doors; five chambers on second floor, with dressing room off each; grate in every room; cost $10,000; plans out for bids.

School house at Long Beach—Two school rooms, 26½x30 each on the ground floor; lobby 12x24, running the whole length of front; four cloak rooms 7x11½ each; entrance to school rooms through cloak rooms, with separate entrances for the girls and boys. In rear of school rooms, two teachers' rooms 8x9 each, and library room 10x12. The school rooms will furnish seating capacity for forty-five pupils each, with single desks. The light is admitted through double windows at the sides so that it falls over the left shoulders of pupils. There will be grates for heating and ventilation; also cold-air registers in the basement and registers near the ceiling.

On the second floor there will be ample landings, a library 13½x18 feet in front, lighted with three large windows, and communicating by sliding doors with two reading rooms, 8x12 feet each. The main hall for assemblage purposes, 30x52 feet; entrance by double doors. Above at head of hall, which, with platform extending 8 feet into hall, furnishes a stage 11x31 feet. The general style of the building is a modern adaptation of the Queen Anne. It is very ornate, with two outside chimneys and a small window inserted in each; bell tower over the front gable; cost about $6000; bids now taken. It is expected that the building will be completed by January 1st, 1886.

Mr. Brown also has in hand a monument in Wilmington to be erected to the memory of General Phineas Banning. It will be built of Westerly, R. I., granite (light grey), and cost $7000.

Also, a granite retaining wall for A. E. Pomeroy, on Charity street above Fifth; frontage, 175 feet; corner entrance and two front entrances; columns at entrances, twelve feet high; intermediate columns, sixteen feet apart, total cost of wall, $3600. J. J. Clark, of Clark and Evans, contractor.

Mr. Brown has drawn plans for an $8000 residence to be built on this lot for Mr. Pomeroy, operations to begin as soon as the retaining wall is completed.

Mr. Brown has just finished a house for Andrew Nichols, on Olive street, near Ninth; nine rooms, two stories; frame; cost $6000.

New building, cottage, for M. G. McKoon, on the corner of Orange and Kipp streets, above Pearl; one and a half stories; frame; eight rooms, besides pantries, closets, baths, etc.; cost $3000.

Mr. Brown has also a number of plans in hand which are not yet sufficiently advanced to be reported.

AGRICULTURAL TRAINING.

Opening of the Chaffey College of Agriculture.

All must hail with satisfaction any effort towards increasing the educational facilities of Southern California, and it is therefore pleasing to note that the Chaffey College of Agriculture has been opened for the admission of pupils.

On Thursday last twelve pupils were admitted to the College, and, as soon as the catalogues reach the hands of parties in the surrounding country and the Eastern States, a considerable accession to the College roll may be confidently predicted.

The president of the school has been averse to advertising the advantages of the institution under his control until the College building could be prepared for the reception of pupils, and the unoccupied apartments of a dozen scholars on the day of opening is a good augury of success for this enterprising institution.

One of the drawbacks of this portion of the State has been the lack of educational facilities, and oftentimes the only regret of an immigrant who has settled in this country has been, for the scholastic advantages his family has lost by coming here. Now, however, a different state of affairs has been inaugurated. Medical, agricultural and theological colleges, under good auspices and liberal endowments, have sprung into life and usefulness, and the founders of colonies, following the lead of the Chaffey brothers, have wisely sought to benefit themselves as well as the settlers by favorably fostering educational schemes.

Following will be found a list of professors and instructors of the Ontario college, amongst whom will be found several names well and favorably known in Los Angeles county:

THE FACULTY.

W. F. Wheeler, A. B., President and professor of agriculture and mathematics, Greek and Latin.

Miss Clara M. Blunt, professor of vocal and instrumental music.

Until the other professorships are filled, instruction will be given by the professor of agriculture and practical instructors.

Chairs of Practical Instruction.

Agriculture—C. E. White, Pomona.
Horticulture—D. A. Shaw, Ontario.
Arboriculture—D. Nicol, Ontario.
Agricultural Engineering—J. O. Dunlap, United States Deputy Surveyor, Ontario.
Agricultural Mechanics—Elwood Chaffey, M. D., Ontario.
Veterinary Practice and Entomology—C. D. Watson, M. D., Ontario.
Botany—Mrs. A. J. Dunlap, Ontario.

ONTARIO.

OPENING OF THE COLLEGE OF AGRICULTURE. [Correspondence of the TIMES.]

ONTARIO, Oct. 17.—The Chaffey College opened on the 16th inst. President Wheeler admitted twelve pupils, but from indications coming to hand, it is learned that many more wish to avail themselves of the opportunities afforded in the college for the acquirement of agricultural knowledge. A fine bell, manufactured by W. T. Garrett & Co., of San Francisco, has been placed on the college roof.

On Wednesday a Wheelock piano was placed in the audience room, and furniture for the class-rooms, etc., is being rapidly placed in position.

A first-class millinery and dressmaking establishment will be opened on the 1st of November in Captain Graves's building, on Euclid avenue.

The "Ohio Block," corner of A street and Euclid avenue, is being rapidly erected. When completed, it will be the handsomest business building in town.

Nineteen is crushing his grapes at the San Antonio winery. He has shipped a considerable quantity of wine to Milwaukee this season.

There is a demand for houses to rent, and nobody knows where all the season's visitors will be stowed away. Rooms can at present be had at the various houses, but as the season advances the demand will exceed the supply. So much for having a healthy location.

A corner lot on Euclid avenue was sold the other day for five times its cost two years ago. The new purchaser will put up a brick store and hall building on the premises.

Mrs. White, wife of the manager of the Nadeau block, is visiting her friends, Dr. C. D. Watson and Mrs. Watson.

Mr. Stanton, formerly a prominent Canadian paper manufacturer, is paying Ontario a visit.

The Iowa "Idea."

To the Editor of the Times—SIR: Quite a number of us from the Hawkeye State have been stirred up somewhat by the development of the "Ohio idea" into an association for mutual acquaintance and greetings, and our hearts begin to burn within us with a desire for an organization here of men and women, boys and girls from Iowa, the glorious "Massachusetts of the West." We believe that no State east of us has sent a larger number of her best citizens to share in the health-giving sunshine, the balmy air, and the golden fruits of California, than has beautiful Iowa. While we love our adopted State, we do not forget the grand State from whence we came, and its proud record in all moral and material developments, or its noble and patriotic people—all worthy to be held in remembrance and transplanted in this glorious clime. That we may become better acquainted with each other, be mutually helpful, and of service to those who may in the future wish to seek a home among us, it is suggested that an early meeting be called to organize ourselves into an association. What say you, men from Iowa? Come, let us gather here under the shadows of the great mountains, in the most beautiful valley of the world, and plant all that is good which we brought from our former home, and do all we can to help each other and those who may come among us. HAWEYE.

Corporation Fruit Marketing.

A correspondent writes to the Sacramento Bee that he has "read with interest the article published in your paper [the Bee] and quoted from the LOS ANGELES TIMES, giving in detail the fruit corporation plan proposed by Mr. DeBarth Shorb." He finds some merits in Mr. Shorb's plan, but at the same time serious objections. The correspondent says:

He takes it for granted that, if an organization is formed, the extensive commission merchant or speculator, who has made large fortunes in shipping California fruits, and who has unlimited capital at his command, together with a wide experience and thorough knowledge of the business, is going to submit quietly, fold up his tent and silently steal away. But in this, I fear, Mr. Shorb counts without his host.

Is not the Eastern market as open to the commission merchant as to the proposed corporation, and is it not morelikely that the commission man will make extraordinary efforts to throw every obstacle in the pathway of success, and do all in his power to destroy harmony in the ranks of the corporation? And how easy will be the task! In the first place, you must admit that all growers are not of one mind, and never can be brought to think alike. That no matter how large a number of growers may enter the proposed corporation, there is sure to be quite a respectable minority who will keep out. This minority will be more than sufficient to furnish the wide-awake commission man with all the ammunition he may require in the shape of fruit, with which he may successfully fight his enemy, the corporation.

Mr. Shorb concludes his article by saying:

Remember, one single drop of water will overturn the cup as surely as a thousand, and this logic finds one of the drop here acquires a position, power and value not to be overestimated.

On this point there can be no dispute. Hence, if one drop acquires so important a position, why will not the commission man's shipments, so guided as to squarely meet in the market the shipments of the corporation, become a drop so important and so serious as to completely destroy the equilibrium between supply and demand. In the event of a corporation being formed, war between the corporation and the powerful commission men is inevitable. And it requires no great prophet to foretell that the corporation, lacking, as it will, experience, lacking connections, lacking confidence in its untried directors, lacking the boldness, courage and unanimity existing in a private firm, will stand a poor chance in battling with an enemy who will meet the field with a determination to purposely lose money for an indefinite period in order to bring unsatisfactory returns and thus demoralize the corporation stockholders. In fact, the corporation will find itself a helpless target at which the active and tireless commission man will fire his shots with most telling and disastrous effect.

These are valid objections and a real danger to be feared in consummating the plan projected by Mr. Shorb. It will be found impossible in practice to unite all the fruit-growers of a given district in a single organization, operating through one system of exchange. There will always be found producers enough to stand out and antagonize the central organization by independent action or by setting up a rival shop. The cry of "monopoly," whether well or ill founded, will be raised, and pretty soon Old Nick will demand to be paid off, probably just at the critical and unpleasant juncture when there is no pitch at a satisfactory degree of temperature.

These and other objections to the plan proposed are presented for consideration, not because the TIMES would discourage co-operation on the part of the fruit-producers, which is desirable and necessary in order to protect themselves and prevent the middlemen and transportation lines from getting away with all the profits of the business; but it is essential that, in any plan adopted, only feasible and practical features be incorporated, and chimerical crinks be eliminated. The promoters of the projected fruit-growers' exchange must bear in mind that they are proposing to enter into active competition with the established and strongly-intrenched fruit dealers, who will not let go their hold or surrender the advantages of position without a fight. For this reason it is obviously necessary that any new co-operative organization that may enter the field shall do so on more than equal terms with the disciplined forces already holding the fort, else the result will be an unequal contest, in which the loosely-wedded, poorly-disciplined and more unwieldy organization will be speedily driven from the field.

One leading objection to the co-operative plans proposed strikes us with force. It seems to us that too much and too elaborate machinery is contemplated in these plans, and too much expense involved. The elaborate schedule of high salaries set out in Mr. Sallee's plan, for instance, is enough to make cautious, practical men look askance at it. We do not, of course, hold that valuable service should not be well compensated, but the standard by which the salaries of the various officers and agents is to be fixed ought to be the average standard prevailing in private commercial circles, or the co-operative people will find profitable competition with their more economical rivals out of the question.

The new venture may work out a successful destiny yet, but, like all things of value and permanency, its beginnings should be modest and its growth slow and sure.

THEY have a "University of Southern California" near Los Angeles. Now all they want is a State capitol and a few people to make a State.—[San Francisco Post.

NEW BUILDINGS

In the Hands of a Los Angeles Architect.

Carroll H. Brown, architect, Schumacher block, being interviewed by a TIMES reporter yesterday, gave the following list of buildings in his hands:

Just completed, house for Louis Shiveley, in Wilson Orchard tract, Hill street, between Ninth and Tenth; style, modern adaptation of Gothic; nine rooms, besides pantry, closets and bath; main rooms and hall connected with sliding doors; cost $6500.

Residence for H. L. Macneil, of the County Bank, on Sixth street, between Olive and Hill; reception hall, parlor, sitting room, reception room—six rooms on the first floor, besides closets; large chambers above, with dressing rooms off each; cost $8500; frame up.

For W. A. Clark, late of Montana, residence on Olive street, between Ninth and Tenth, to be the finest house on the street; outside finish, first story rustic, second story shingled, plate-glass windows in front, seven rooms on first floor; four opening together with sliding doors; five chambers on second floor, with dressing room off each; grate in every room; cost $10,000; plans out for bids.

School house at Long Beach—Two school rooms, 26¼x30 each on the ground floor; lobby 7x34, running the whole length of front; four clock rooms 7x11¼ each; entrances to school rooms through cloak rooms, with separate entrances for girls and boys. In rear of school rooms, two teachers' rooms 8x9 each, and library room 10x12. The school rooms will furnish seating capacity for forty-five pupils each, with single desks. The light is admitted through double windows at the sides so that it falls over the left shoulders of pupils. There will be grates for heating and ventilation; also cold-air registers in the basement and registers near the ceiling.

On the second floor there will be ample landings, a library 13¼x18 feet in front, lighted with three large windows, and communicating by sliding doors with two reading rooms, 8x12 feet each. The main hall for assemblage purposes, 30x52 feet; entrance by double doors. Alcove at head of hall, which, with platform extending 8 feet into hall, furnishes a stage 11x21 feet. The general style of the building is a modern adaptation of the Queen Anne. It is very ornate, with two outside chimneys and a small window inserted in each; ball tower over the front gable; cost about $6000; bids now taken. It is expected that the building will be completed by January 1st, 1886.

Mr. Brown also has in hand a monument in Wilmington to be erected to the memory of General Phineas Banning. It will be built of Westerly, R. I., granite (light grey), and cost $7000.

Also, a granite retaining wall for A. E. Pomeroy, on Charity street above Fifth; frontage, 175 feet; corner entrance and two front entrances; columns at entrance, twelve feet high; intermediate columns, sixteen feet apart; total cost of wall, $3500. J. J. Clark, of Clark and Evans, contractor.

Mr. Brown has drawn plans for an $8000 residence to be built on this lot for Mr. Pomeroy, operations to begin as soon as the retaining wall is completed.

Mr. Brown has just finished a house for Andrew Nichols, on Olive street, near Ninth; nine rooms, two stories; frame; cost $6000.

New building, cottage, for M. G. Mellon, on the corner of Orange and Hope streets, above Pearl; one and a half stories; frame; eight rooms, besides pantries, closets, baths, etc.; cost $3000.

For W. A. Clark, late of Montana, residence on Olive street, between Ninth and Tenth, to be the finest house on the street; outside finish, first story rustic, second story shingled, plate-glass windows in front, seven rooms on first floor; four opening together with sliding doors; five chambers on second floor, with dressing room off each; grate in every room; cost $10,000; plans out for bids.

School house at Long Beach—Two school rooms, 26¼x30 each on the ground floor; lobby 7x34, running the whole length of front; four clock rooms 7x11¼ each; entrances to school rooms through cloak rooms, with separate entrances for girls and boys. In rear of school rooms, two teachers' rooms 8x9 each, and library room 10x12. The school rooms will furnish seating capacity for forty-five pupils each, with single desks. The light is admitted through double windows at the sides so that it falls over the left shoulders of pupils. There will be grates for heating and ventilation; also cold-air registers in the basement and registers near the ceiling.

On the second floor there will be ample landings, a library 13¼x18 feet in front, lighted with three large windows, and communicating by sliding doors with two reading rooms, 8x12 feet each. The main hall for assemblage purposes, 30x52 feet; entrance by double doors. Alcove at head of hall, which, with platform extending 8 feet into hall, furnishes a stage 11x21 feet. The general style of the building is a modern adaptation of the Queen Anne. It is very ornate, with two outside chimneys and a small window inserted in each; ball tower over the front gable; cost about $6000; bids now taken. It is expected that the building will be completed by January 1st, 1886.

Mr. Brown also has in hand a monument in Wilmington to be erected to the memory of General Phineas Banning. It will be built of Westerly, R. I., granite (light grey), and cost $7000.

Also, a granite retaining wall for A. E. Pomeroy, on Charity street above Fifth; frontage, 175 feet; corner entrance and two front entrances; columns at entrance, twelve feet high; intermediate columns, sixteen feet apart; total cost of wall, $3500. J. J. Clark, of Clark and Evans, contractor.

Mr. Brown has drawn plans for an $8000 residence to be built on this lot for Mr. Pomeroy, operations to begin as soon as the retaining wall is completed.

Mr. Brown has just finished a house for Andrew Nichols, on Olive street, near Ninth; nine rooms, two stories; frame; cost $6000.

New building, cottage, for M. G. Mellon, on the corner of Orange and Hope streets, above Pearl; one and a half stories; frame; eight rooms, besides pantries, closets, baths, etc.; cost $3000.

Mr. Brown has also a number of plans in hand which are not yet sufficiently advanced to be reported.

AGRICULTURAL TRAINING.

Opening of the Chaffey College of Agriculture.

All must hail with satisfaction any effort towards increasing the educational facilities of Southern California, and it is therefore pleasing to note that the Chaffey College of Agriculture has been opened for the admission of pupils.

On Thursday last twelve pupils were admitted to the College, and, as soon as the catalogues reach the hands of parties in the surrounding country and the Eastern States, a considerable accession to the College roll may be confidently predicted.

The president of the school has been averse to advertising the advantages of the institution under his control until the College building could be prepared for the reception of pupils, and the unsolicited attendance of a dozen scholars on the day of opening is a good augury of success for this enterprising institution.

One of the drawbacks of this portion of our State has been the lack of educational facilities, and oftentimes the only regret of an immigrant who has made this country his home, is for the scholastic advantages his family has lost by coming here. Now, however, a different state of affairs is being inaugurated. Medical, agricultural and theological colleges, under good auspices and liberal endowments have sprung into life and usefulness, and the founders of colonies, following in the lead of the Chaffey brothers, have wisely sought to benefit themselves as well as the settlers by favoring and fostering educational schemes.

Following will be found a list of professors and instructors of the Chaffey college, amongst whom will be found several names well and favorably known in Los Angeles county:

W. F. Wheeler, A. B., President and professor of agriculture and mathematics, Greek and Latin.

Miss Clara M. Blunt, professor of vocal and instrumental music.

Until the other professorships are filled, instruction will be given by the professor of agriculture and practical instructors.

Chairs of Practical Instruction.

Agriculture—C. E. White, Pomona.
Horticulture—D. A. Shaw, Ontario.
Arboriculture—D. Nicol, Ontario.
Agricultural Engineering—J. C. Dunlap, United States Deputy Surveyor, Ontario.
Agricultural Mechanics—Elwood Chaffey, M. D., Ontario.
Veterinary Practice and Entomology—C. D. Wheeler, M. D., Ontario.
Botany—Mrs. A. J. Dunlap, Ontario.

ONTARIO.

OPENING OF THE COLLEGE OF AGRICULTURE.
Correspondence of the TIMES.]
ONTARIO, Oct. 17.—The Chaffey College opened on the 16th inst. President Wheeler admitted twelve pupils, but from letters constantly coming to hand, it is learned that many more wish to avail themselves of the opportunities afforded in the college for the acquirement of agricultural knowledge. A fine bell, manufactured by W. T. Garratt & Co., of San Francisco, has been placed on the college roof.

On Wednesday a Wheelock piano was placed in the audience room, and furniture for the class-rooms, etc., is being rapidly placed in position.

A first-class millinery and dressmaking establishment will be opened on the 1st of November in Captain Graves's building, on the corner of Euclid avenue.

The "Ohio Block," corner of A street and Euclid avenue, is being rapidly erected. When completed, it will be the handsomest business building in town.

Nisbacken is crushing his grapes at the San Antonio winery. He has shipped a considerable quantity of wine to Milwaukee this season.

There is a demand for houses to rent, and nobody knows where all the season's visitors will be stowed away. Rooms can at present be had at the various houses, but at the close advances the demand will exceed the supply. So much for having a healthy location.

A corner lot on Euclid avenue was sold the other day for five times its cost two years ago. The new purchaser will put up a brick store and hall building on the premises.

Mrs. White, wife of the manager of the Nadeau block, is visiting her friends, Dr. C. D. Watson and Mrs. Watson.

Mr. Stannion, formerly a prominent Canadian paper manufacturer, is paying Ontario a visit.

LETTERS FROM THE PEOPLE.

The Iowa "Idea."

To the Editor of the Times.—SIR: Quite a number of us from the Hawkeye State have been stirred up somewhat by the development of the "Ohio idea" into an association for mutual acquaintance and greetings, and our hearts begin to burn within us with a desire for an organization here of men and women, boys and girls from Iowa, the glorious "Massachusetts of the West." We believe that no State east of us has sent a larger number of her best citizens to share in the health-giving sunshine, the balmy air, and the golden fruits of California, than has beautiful Iowa. While we love our adopted State, we do not forget the grand State from whence we came, and its proud record in all moral and material developments, or its noble and patriotic people—all worthy to be held in remembrance and transplanted in this glorious clime. That we may become better acquainted with each other, be mutually helpful, and of service to those who may in the future wish to seek a home among us, it is suggested that an early meeting be called to organize ourselves into an association. What say you, men from Iowa? Come, let us gather here under the shadows of the great mountains, in the most beautiful valley of the world, and plant all that is good which we brought from our former home, and do all we can to help each other and those who may come among us.

Electro-Magnetism, the New Means of Cure.

Dr. E. Robbins' Electro-Magnetic Institute, corner First and Spring streets, entrance on First street, is now fitted up, at considerable expense, with everything that is necessary to cure chronic and so-called incurable disease, by the most electrical apparatuses in the world. Turkish and Russian baths; also electric sulphur baths. Dr. Robbins has had several years' experience in the Australian colonies, San Francisco, Salt Lake City, Denver, and these years in Los Angeles, and hundreds of leading citizens can testify to the wonderful effects of electricity in curing cases of chronic diseases when all else had failed, and therefore all persons suffering should try this new scientific and sure remedy for healing all hops. After every treatment the patients are treated with the Massage treatment, by persons of their own sex. The Doctor discharges patients without explanation from the patient, free of charge. His office hours are 9 till 12, 1 to 4, 7 to 9.

Stocks and Bonds.

By Telegraph to The Times.

NEW YORK, Oct. 19.—Government bonds dull and steady.

Railway bonds are extremely active, and a few of them are speculative issues and sympathize to some extent with the course of the stock market. Erie second bonds closed with a loss of ¾ per cent, with sales of 1,071,000. Transactions in Atlantic and Pacific amounted to 1,153,000, closing with a gain of $1 38 for Western Division firsts, and closed at a net advance of 88.

Stocks were more active to-day than ever before seen on the floor of the Exchange. With the activity came also a decided advance in prices, which amounted at one time to a veritable boom in nearly every stock on the list. The market, near the opening, was somewhat irregular and inclined to be feverish. From the end of the first hour to 11 o'clock there was a decided upward movement, resulting in a gain over Saturday evening's closing quotations of ¾ to over 2 per cent. Oregon Navigation has been in advance of 2¾ per cent, and Pacific Mail 3¾.

Domestic Grain Market.

SAN FRANCISCO, Oct. 19.—Wheat—The market was tame this morning. There was a moderate shipping demand, but 87½ per central was the full buying limit for No. 1 export quality, and light transfers were reported at this figure. Barley—Weak and opens on a steady market. Asking prices for No. 1 feed range from 81 40 to 81 42½. A choice article is held at an advance. Some poor quality of old changed hands to-day at $1 35. Brewing is quotable at $1 47½ to $1 50; chevalier $1 40 to $1 60.

CHICAGO, Oct. 19.—Wheat active, weak; closed 1½c under Saturday; 89c October; 89½c November; 90½@ December; 87½c May. Corn very quiet, easy, closing about ½c under Saturday; 42c October; 40½c November; 37¼c year; 38c May. Barley quiet at 67c.

English Grain Market.

LIVERPOOL, Oct. 19.—Wheat, quiet and steady, supply large. Corn steady, fair demand.

LONDON, Oct. 19.—The Mark Lane Express, in its review of the grain trade during the past week, says: A majority of the samples of the new wheat crop are unsatisfactory sound wheats are a sixpence dearer. Sale of English wheat during the week were 70,000 quarters at 30s 3d, against 78,412 quarters at 29s 4d during the corresponding week last year. Flour is freely offered at the lowest rates. Prices of superior barleys are advancing. Those of inferior are declining. Supplies of foreign are gradually improved and are quoted at a sixpence to a shilling decline. It appears that a project for creating a basis for pure gambling in the London wheat market has been partially kept in check. The movement is now being made toward its legalization. If the plan is successful it will be the beginning of the end of the stability of the London corn trade, which has been the marvel of the world during the long period of depression. Flour has occasionally been a sixpence higher. Receipts from America are marked by decline. Three cargoes arrived, two cargoes were sold, one was withdrawn and one remained, including one of California. Twelve are due. At to day's market sellers of wheat held firmly to their decision. There was against buyers. Corn, quiet. Barley, quiet.

Pork.

CHICAGO, Oct. 19.—Pork only moderately active, ruled irregular within a narrow range, closed about 5c over Saturday; $9 87½ October.

HOME MANUFACTURES.

Local Announcements of Leading Los Angeles Industries.

Los Angeles Cracker Company.

The Los Angeles Cracker Company, corner of Aliso street and Alise road, has entered upon its third year under most favorable auspices. All kinds of crackers and cakes are manufactured, and the quality is now better than the best imported. The Cracker Company is a local enterprise which should have the support of every one. It is thoroughly deserving. Wisner & Co. are the proprietors.

Los Angeles Soap Company.

The Los Angeles Soap Factory is one of the oldest manufacturing establishments in the southern portion of the State, having been started about a quarter of a century ago. It has been under the management of the present proprietors, Messrs Forthmann & Berger, twelve years, and they have brought it up to a high standard. Their toilet and laundry soaps are famous all over the southern country, and their borax soap is particularly in demand by housekeepers. They deal in caustic soda, sal soda, soda ash, potash, resin, tallow, hides, pelts, skins and wool. They also manufacture whale oil soap, which has been tried and used extensively by the most prominent fruit growers of Southern California, and has proved a most effective insecticide. The office and works of the Soap Company are located at 49 to 57 Banning street and 507 First street.

Los Angeles Soda Works.

The Los Angeles Soda Works, H. W. Stoll & Co., proprietors, No. 107 Somerville street, is one of the oldest manufactories in Los Angeles, having been in existence eighteen years. They manufacture soda water, sarsaparilla, ginger ale, mineral waters, lemon and other sour and all kinds of syrups. Their specialty, however, is the famous "Climax" soda fountain, for fine flavor has no equal. This soda is superior to any fountain drink ever before introduced in Los Angeles, and the demand for it this season has been immense. Messrs. Stoll & Co. ship their goods all over the Southern California, and their business has grown rapidly. Orders from any part of the city and country will be promptly attended to and satisfaction guaranteed.

Climax Windmill.

The Climax windmill is the invention of J. R. Millard, a Los Angeles gentleman. It was patented on July 21st last. The patent claims for it that it will run in less wind, is much stronger built, less complicated and thirty-three per cent cheaper than any Eastern mill in the market. It is highly recommended by all who have tried it, including such well-known residents as Wm. Lacy, G. A. Dobinson and M. L. Wicks, of Los Angeles; Mr. Millard also manufactures at his factory, in Second street, iron and wood tanks and all kinds of pumps.

Globe Coffee and Spice Mills.

The Globe Coffee and Spice Mills are located on Aliso avenue. This establishment has long been noted for the excellent quality of its coffee and spices, and since F. L. Jones, the present proprietor, assumed charge, the business of the concern has rapidly increased. The specialty of the Globe Mills is its "Golden Nugget" coffee, which, tried, no other brand will be used. The proprietor is always ready to make substantial improvements to his machinery, all orders from the country will promptly be attended to.

The Troy Shirt Factory.

The Troy Shirt Factory, Room 24, Schumacher block, is the leading establishment of the kind on the Coast. It has been in operation for about two years, its specialty being custom made goods, or in other words fine shirts and underwear made to order. The business has grown rapidly, and its prospects are of the very best in this city. The advantage of custom made goods over those purchased ready made will be apparent to all, and nothing but the best materials are used by Mr. Seligman, the proprietor, in the cut, as will be seen, a comfortable saving is effected. Prices as low as in San Francisco. Another excellent feature of the Troy factory is the fact that only white labor is employed. No Chinese have any hand in the work, which is all given to white girls.

Steam Carpet-Beating Company.

The Pioneer Steam Carpet-Beating Company, Seventh street, near Main, telephone No. 197, P. O. box 79, is owned by Robert Sharp & Co., the firm being Robert Sharp and A. H. Hoening. The advantages of turning over soiled and dusty carpets to this company are many, and much of the disagreeable work of the inevitable spring and house-cleaning may be avoided. The method employed has many advantages, of which the principal and the thorough beating of the house of dust and dirt, moths, moth eggs and other vermin, and the fact that this is a great saving in expenses, amounting often to as much as 50 per cent. The success of the Steam Carpet-Beating Company has been gratifying, and they are certainly well deserving of the patronage of the public.

Upholstering and Mattress Factory.

The Los Angeles Upholstery and Mattress Factory is located at the corner of Second and Los Angeles streets. The proprietor, John Morley, has long been in business in this city, and has built up a large trade. The factory turns out mattresses and upholstered work of every description, parlor sets, easy chairs, etc. Mr. Blosser has special facilities for repairing mattresses, sofas, hotels, sanitums, etc. The special advantage in dealing with this home manufactory is that while first-class goods are turned out they can be imported, prices are much lower. In addition to this, can be found advantageous to send orders to this house.

NOTICE.

To whom it may concern:

The following petition for the incorporation of the Pacific Coast Rubber Works to be presented to the Supervisors of Los Angeles county, on November 2d:

To the Honorable Board of Supervisors of the county of Los Angeles, State of California:

The undersigned present to your honorable body this their petition, and respectfully show:

That your petitioners are qualified electors of the said county and residents within the limits of the portion of said county hereinafter set forth bounded and described.

That the name of said body or corporation is to be ascertained by your petitioners, said portion of said county containing six hundred inhabitants.

That said portion of said county is to be known and called as municipal corporation.

That the boundaries of said county bounded and described as follows, to-wit:

Commencing at the southeasterly corner of the Pacific Electric Railway Company's land, south to the low water line of the Pacific ocean, running thence easterly along said low water line to a point where the extension of the easterly line of Montana avenue, as said avenue is laid down on said map, would intersect said low water line; thence northerly along the line of said extension of said easterly line of Montana avenue to the point where the easterly line of said Montana avenue intersects the northerly line of Eleventh street, as said down on said map, running thence along said northerly line of Eleventh street and along the line in extension of said northerly line of Eleventh street easterly to the easterly exterior boundary of the San Vicente rancho; running thence northerly along the easterly boundary of said rancho southerly to the point of commencement.

And your petitioners pray that said portion of said county may be incorporated under the provisions of an act of the Legislature of the State of California, entitled:

"An Act to provide for the organization, incorporation and government of municipal corporations."

Approved March 15, 1883.

And that said corporation so be given the name and style of the City of Santa Monica.

And your petitioners will ever so pray.

Notice to Creditors.

IN THE SUPERIOR COURT, SAN BERNARDINO county, State of California.

In the matter of Charles H. Moore, an insolvent debtor.

Charles H. Moore having filed in this court his petition, schedule and inventory in insolvency, by which it appears that he is an insolvent debtor, the said Charles H. Moore is hereby declared to be insolvent. The sheriff of San Bernardino county is hereby directed to take possession of all his estate, real and personal, except such as may be by law exempt from execution, and of all his deeds, vouchers, books of account and paper, and to keep them safely until the appointment of an assignee of his estate. All persons are forbidden to pay any debts to the said insolvent or to deliver any of his property to him or to any person, firm or corporation for his use; and the said debtor is hereby forbidden to pay, dispose of or deliver any property, except as herein ordered until the further order of this court.

It is further ordered that all the creditors of said debtor be and appear before this court at the court-room thereof, in the courthouse in the town of San Bernardino, in this county, on Monday, the 23d day of November, 1885, at 10 o'clock a. m. of that day, to prove their debts and choose one or more assignees of the estate of said insolvent.

It is further ordered that a copy of this order be published in the DAILY TIMES, a newspaper of general circulation, published in Los Angeles, Cal., as often as the said newspaper is published before the said day set for the meeting of creditors.

And it is further ordered that in the mean time all proceedings against the said insolvent be stayed.

JAS. A. GIBSON,
Judge of the Superior Court.

Marriage licenses were issued yesterday for the following couples: C. T. Fenner and Miss J. S. Smith; F. B. Corlson and A. R. Erickson; E. F. Beckwith and Nettie L. Buddock.

The directors of the fair have invited the children of the Protestant Orphan Asylum to visit the pavilion Wednesday forenoon and the children of the Catholic Orphan Asylum Thursday forenoon.

Minnie Brown, who was in trouble last spring for the stealing of $305 from a "gentleman friend," is again in the toils of the law on a similar charge. She is under $100 bonds, and is to plead at 11 a. m. to-morrow.

Arrests by the police yesterday: Gory, expressman, for violating license ordinance; Ah Jim, peddling without license; Sidney Turnbush, assault with a deadly weapon; J. Goggins and John Deni, fighting; Jimmy Sprague, petit larceny; one blue horse, estray.

Resolutions by Sigler Excursionists

Resolved, That the thanks of the October excursion party are due, and hereby tendered Colonel H. C. Sigler, manager of the F. F. E. excursion party, by whose untiring efforts, care and attention have contributed so much to the comfort and pleasure of our trip to the Pacific Coast.

Resolved, That we recommend his excursion to any of our friends who may desire to visit the Pacific, and assure them that they will have a much pleasanter time traveling with one of his parties than by regular train.

N. L. STORRY, Chairman.
F. E. BATES, Secretary.

Lost.

On Saturday last (October 17) between railroad depot and Seventh street, a pasteboard box, containing some papers and blank book, of no value but to the owner. The finder will be suitably rewarded by returning same to H. C. Sigler, No. 1 Bryson block, or TIMES office.

PREPARATIONS

For the Opening of the Sixth District Fair To-day.

PUTTING THE PAVILION IN ORDER

At Agricultural Park—Live Stock on Hand—To-day's Racing Programme—Opening at the Pavilion To-night.

Early yesterday morning men were at work in the pavilion (the new Mott Market House) laying off spaces for their exhibits, and carrying in the ten thousand and ten things designed for the fair. All through the day the place exhibited the liveliest kind of hurly-burly. At the front two or three entry clerks were constantly employed, recording the names of exhibitors and the kinds of exhibits. The Schroder-Johnston hardware company were among the first to get their display arranged. Mr. Brown was promptly on hand with his poultry, and Mr. Loitvelier with his carriages. The Pomona cannery took time by the forelock in unpacking their jars and bottles of canned and preserved goods. The Prophet Pratt was on hand with his exhibit of bananas and other fruits. Some fine bunches of bananas came in from Willowdale, the home of Capt. Ellis. The unfailing prodigious pumpkins were also on hand early.

The Mott building furnishes as fine a place for the pavilion display as could be desired. The structure is 60x168 feet in ground dimensions. Both the lower and upper portions will be used. In the center of the main floor a raised dais with pagoda top serves the purpose of a bandstand. Workmen were hammering on this late in the afternoon, with the prospect that it would be finished in time for the opening to-day. The large, wire screen openings, front and rear, furnish abundance of light and air.

AT THE PARK.

A reporter of the TIMES visited Agricultural Park yesterday afternoon, and inspected the preparations making for the live stock and speeding part of the Fair. In response to special efforts put forth by the management, the city authorities have repaired Figueroa street and other thoroughfares leading to the park, and have put on sprinklers as far down as the corner of Adams and Pearl streets.

The race-track at the Park has been thoroughly rolled and prepared for the five days of wear and tear before it. Turfmen say that the track was never before in so good a condition. Shed room for seventy-five head of stock has been prepared in addition to the old quarters. Every available stall and pen is engaged, and it is thought will be occupied to-day. Yesterday afternoon, F. J. Barras's twenty head of Jerseys were in their places. Mr. Bixby, of Cerritos, had eight or ten Holsteins; Cheyney, of Downey, five Holsteins; Mrs. Hollenbeck, three Holsteins; C. W. Davis, three Jerseys, and various individuals ran the number of head more. The larger part of the live stock exhibit will come in early this morning.

Of the sixty-nine stalls for horses, sixty-nine were full yesterday. The entries in the speed contests being all closed, the stables were to be handed over to the fray. Six of the stalls are occupied by stallions and a considerable number by brood mares.

2. Opening address by President Lichtenberger.
3. Annual address by Joseph D. Lynch.
4. Music by male quartette.
5. Poem by Albert F. Kercheval.
6. Music by the City Band.

AMUSEMENTS.

MAY BLOSSOM.—The initial performance of this company at the Grand Opera House last evening was fairly attended. When the two weeks of unremitting amusements which have been given the public of Los Angeles are taken into consideration, the good turnout may be taken as a decided compliment to the Madison Square Company. *May Blossom* is a wholesome, sympathetic, honest American play, with a spice of native humor, an appealing domestic situation, a prattling child that accomplishes wonders, and a climax as good as could be expected under the circumstances. Miss Rose Wood as "May Blossom" won her way to the sympathies of all, and in some of the more pathetic scenes, did her full share towards pumping tears into the eyes of the audience, albeit they tried not to show it. "Steve Harland," the young fisherman, was personated by E. J. Holden in a frank, straight-forward manner, albeit without much of the fisherman's conventionality. R. C. White as "Tom Blossom," father of May, was well made up, and carried off the bluff old salt to a charm. "Hank Binster" was another character whose make-up challenged admiration. To the little tot who passes on the bill as Ida May, a great deal of credit is due. It is very rarely that a child's character is so well personated—the lines so well said that the audience get their full import and respond to their happy hits. *May Blossom* is worth seeing and will make any audience better, and not worse, for the sentiments which it arouses. To-night the play will be repeated. To-morrow and Thursday evening, *Hazel Kirke* will be upon the boards, and Friday and Saturday evenings will be presented *The Octoroon*. The play for Saturday's matinee is not yet determined upon, but it is to be hoped that *May Blossom* will be given, as it appeals most forcibly to the ladies and children.

WRESTLING MATCH.—The Greco-Roman wrestling match at Washington Gardens, Sunday afternoon, drew a large crowd. The contestants were Peter Schumacher and Lucien Marc Christol, and the stakes $150 a side and the gate money. The first round, which occupied six minutes, ended by a throw for Schumacher. It was said that the fall broke Christol's right collar bone, notwithstanding his injury, Christol wrestled another round, this time throwing his adversary. But Christol was unable to contest a third round and Schumacher was declared the winner. There was some talk of the affair being a hippodrome by disgruntled spectators. Christol, however, had had his right collar bone broken before in a wrestling match, and it is probable that the fracture was repeated in the same place.

TURNVEREIN ENTERTAINMENT.—The ladies of the Turnverein gave a literary entertainment at Turnverein Hall Sunday evening, which was well attended. The sum of $200 was cleared towards paying for the flag. Another entertainment is in prospect.

Dr. Stebbins.

Rev. Dr. Stebbins, of San Francisco, preached an eloquent sermon to a large audience at the Church of the Unity Sunday morning. The Doctor's vacation of several weeks in this city has about come to a close. He expresses himself much pleased with our city and regrets that his stay cannot be longer. His addresses have been a rare treat for our people.

Zanjero Jenkins Cased.

The employés of City Zanjero Jenkins presented that official, Saturday evening last, with a fine gold-headed cane as a token of their regard for him. The irrigation season has closed and the employés now disband until next Spring. The affair was a very pleasant one and wound up with a champagne supper.

MARTHA TINGLE.

A Colored Woman Whose Sudden Taking Off Causes an Autopsy and Inquest.

Martha Tingle, a mulatto woman, who had resided in Los Angeles for many years, died on Sunday at 10 o'clock, at her house, No. 20 San Pedro street, under circumstances which could not then be accounted for satisfactorily. She had been attended the night before by Dr. Wm. S. Wills, her physician, who, in order to relieve the pains she complained of, injected from ¼ to ½ of a grain of morphine and atropia hypodermically, as he had done several times before. The next morning she was discovered in a state of coma by her relatives, breathing stertorously, pulseless, and the heart beating feebly. Several doctors, in the absence of Dr. Wills (who was out visiting a patient in the country,) were called in, but could afford no relief. Five minutes before her death she opened her eyes and looked at the window and appeared desirous of speaking but could not. When Dr. Wills was apprised of the death of Mrs. Tingle he declined giving a certificate of death, owing to his having been unable, by reason of her unwieldiness of form and her unsatisfactory examinations, to well diagnose her ailment. Some ignorant or suspicious persons also laid great stress upon the hypodermical injection as a possible cause of the death; and the family, furthermore, clamored for an inquest. Dr. McFarland, the coroner, being appealed to, under those circumstances felt it his duty to hold an inquest and post mortem. The autopsy was witnessed by Drs. Hanson, Wadsen, Kirkpatrick, Wills and Fullanahee. It showed serous effusion in the ventricles at the base of the brain, with small clots of blood. The heart presented fatty degeneration, and the liver, kidneys and lungs were congested. The physicians determined, from the internal examination, that the primary cause of death was pericardic effusion and acute congestion of the kidneys, and the secondary cause, effusion and congestion of the brain. The jury, after hearing the medical evidence and that of the friends of deceased, decided that Martha Tingle, a native of Arkansas, aged 48, died on the 18th of October, of natural causes. She will be buried to-day, from her residence, at 3 o'clock p. m.

Knocked Him Crazy.

More than a month ago Jack Hogan, while in the Congress Billiard Hall, received a blow on the head with a loaded cane in the hands of a man with whom he had some difference. The blow laid open the scalp on top of the head for several inches and felled Hogan to the floor, senseless. He was taken to the police office, where he was soon revived, and, when it was thought he had sufficiently recovered, he was allowed to go his way. After wandering around for three blocks, however, he returned to the police station, and then it was seen that he was not in his right mind. He was therefore detained and cared for a few days, when reason returned to him and he went away. Since then, however, he has complained of a queer feeling in his head, and said he was afraid he should go crazy.

Last Sunday night Hogan was picked up on Fort street, wandering around in his night clothes, and again irrational. He complained that there was a
